

Deportation of Unemployed Aliens Unfortunate Precedent Says Gordon

MINISTER OF IMMIGRATION INTERVIEWED

Might Lesser Relief Burden, But Would be Very Unfortunate

Canadian Press

MOOSE JAW, Sask., Nov. 29.—While the deportation of single, unemployed aliens from Canada will have become public charge, it may lessen the relief burden of the municipalities, but it is rather an unfortunate procedure, in the opinion of Hon. W. G. Gordon, Minister of Immigration, who passed through Moose Jaw Friday evening on his way to take part in a three-day inspection tour of the dominion.

In an interview Hon. W. A. Gordon said in part of his statement issued Thursday by Mr. J. Davison, of Calgary, to the effect that immigration was being taken by that city to deport 1,000 single, unemployed aliens who were being benefited by the Calgary unemployment relief.

"While any municipality in Canada is perfectly within its right to do this, I would not believe that it would be rather an unfortunate procedure. There are many people in the world who may now be receiving assistance or public charges because of the present depression, and it would make very desirable citizens if it allowed to continue, but the depression has passed."

MORE ABOUT WHEAT

CONTINUED FROM PAGE ONE

aid in a probe of relative production costs;

4. A study by farm bodies of state-aided and multi-crop insurance;

5. Award completion of the Hudson Bay route and to obtain equitable freight and insurance rates;

6. Reduction of grain and commodity freight rates and of interest rates on production control loans;

7. Lowest existing price levels for co-operative farm-purchasing bodies from firms benefitting by the depression;

No decision was reached on 100 per cent pooling in the west or on the award of a loan to the dom. in on. government should name for wheat. Alberta and Saskatchewan were asked to favor a guarantee equivalent to \$1.00 per bushel to the farmer for 100 per cent pooling. The organization has taken no stand by its president, E. G. Smith, that a low price is asked it should be \$1.00—equal to the cost of production.

Question of 100 per cent pooling in the east was left to a later convention of Alberta Pool delegates.

CREDIT DECREASE

WATSON, Nov. 29.—The daily average volume of Federal reserve bank credit outstanding during the week ending November 26, as reported by the Federal reserve banks, was \$1,000,000, or a decrease of \$3,000,000 compared with the previous week and of \$500,000,000 compared with the corresponding week in 1929.

VAMPIRE MYRNA LOY
She Hasn't a "Fang" But What a Present!
By DAN THOMAS

Excerpt from the Bulletin

HOLLYWOOD, Nov. 29.—The whole world is a breeding ground for screen sirens of the future.

These sirens are the silver screen do not necessarily half from the fact that they are one million apiece. In fact, judging from past records, the girl from town makes a better screen a screen vampire as the cabaret entertainer of New York.

For example, in Canada, the most famous third of that trio of very successful cinema sirens, first saw the light of day in Helena, Mont.

"A 'Pass' Is Needed

It's a long step from a school girl in the Montana capital to the screen siren, but the silver screen is impeded by distance without any difficulty whatever and in so doing proves that a past is necessary requisite to successful vampirism.

Myrna Loy, absolutely brilliant, was used, but she has a pretty good present and a brilliant future awaiting her.

CONTINUED FROM PAGE ONE

statement, which all three western provinces have apparently declared. Great stone walls were built in several European countries, due to the economic absorption power in the central of Canada of New York.

The accident is most regrettable, said Mr. Becker. "We deplore the loss of life, especially as it involved a young man, and Tommy Woodward well. And it is the more regrettable in that our investigation has been forming an act of the utmost heroism in his endeavor to save the life of the boy. He was carrying in his hands in steering the machine into the gas tank an act which unfortunately ended in death."

Mr. Becker has taken advantage of every opportunity to state that it is a pity which did not appear attractive, which it did not appear attractive, which it did not appear attractive.

"We are concerned with the safety of our citizens, and I am sure that the Canadian Railways some day will be held responsible for the accident," he said.

Mr. Woodward, who was at the board pending hearing of all charges, was released on bail, having raised the existing rates of newspapering by about 27½ per cent, and was ordered to Canada, destined for United States points.

Canadian Press

OTTAWA, Nov. 29.—Adjourned hearing of newsprint rates in the Board of Railway Commissioners here Friday in the hearing of a complaint by foreign manufacturers and users of newspapering against the schedule it was pointed out. "In a little over a year's time," the report said, "the schedule has been looked upon as markets for substantial quantities of imported newsprint, and has been restricted through governmental action."

Low Carry-over
Carry-over from the crop-handlings of 1928 and 1929 were

shown to be appreciably lower than many independent estimates, it was indicated.

At the end of August, 1930, the 1928 crop carry-over was 1,000,000 bushels, and the 1929, 39,000,000 bushels. Of its total sales of 1929, 39,000,000 bushels, 10,000,000 bushels were built into the 1929 carry-over and 49,000,000 from the handlings of 1928.

The salmon-canners of British Columbia also complain that the Suez is putting a strain on their business. Last summer, it seems, has dumped a million cases of canned salmon in the British market, at cut rates, and the British Columbia canners are left with a huge supply on hand, and a puzzle as to what they can do with it.

The canners have one advantage at least over the wheat-growers. The home market is not by any means "saturation" with wheat, and the Canadian have, in fact, been foregoing the allurements of the succulent salmon and allowing eighty per cent of the pack to be eaten abroad—most of it in Great Britain. As the result of this, the canners of the B. C. canners have about 2,000,000 cases for which buyers are not in evidence.

The export market having been lost, would it not be for a change to develop the canning industry in the home market? Canadians used to eat canned salmon in enormous quantities. It was a common article of diet in most Canadian households. But in recent years, Canadians abroad had higher than the Canadian consumer was prepared to go and the salmon went abroad.

Why not modify the Canadian diet so as to encourage and expand the Canadian appetite for more? Who knows but that canned salmon might return after many years to grace the Canadian picnic sandwich and grace the table of the Canadian home?

THE PAYING GUEST

Addressing the Canadian Chambers of Commerce in Toronto, a prominent representative one of the greatest Canadian banks gave the delegates some interesting figures to show what the tourist traffic is worth to communities through which the tourists come, particularly to a large number of the smaller towns.

A convention held in a Canadian city was attended by 275 delegates from the United States. These visitors gave the speaker a general idea of the expenses of running the convention for hotel accommodation, meals, clothes, souvenirs, amusements and incidental amounts to \$60 per head, or a total of \$24,750.

The money left by the visitors was in effect "found" to the community in question, and the money left by the visitors was in effect "found" money. They took nothing away with them in any way, but the permanent record of the amount of their expenditure was an addition to the national business operations of the place; and if they enjoyed their visit they doubtless will be responsible for good many other tourists from the United States visiting that locality in the future.

Edmonton as yet knows little experimentally of the benefits of tourist traffic, and practices the art of the benefit of catering to tourists more than the United States. The above figures suggest a reason why the people of this city, and of all centres in central and northern Alberta, should urge the early completion of the Jasper Park project, when they see that they should energetically back the proposal that the Provincial Government apply for a grant from the federal Trans-Canada fund with which to bring this work in an end next season.

LOWER LICENSE FEES

Several U. F. A. locals are urging that the motor car license fee be reduced to a somewhat nominal sum, the gasoline tax being relied upon to bring in an amount of revenue as large as can be properly collected from the motorist.

The proposal is by no means new, but if it is backed by the U. F. A. convention there will be a better prospect of getting securities than there ever has been. It is up to the U. F. A. to see that there is a steady growth of public opinion favorable to such a change in policy, and that its adoption would meet with little if any objection from any quarter.

The proposal is large enough to be something in the nature of a penalty imposed for owning an automobile. The amount of the fee is determined by the size of the car and its cost, no consideration whatever being given to the man who makes little use of his car, and does correspondingly little damage to the roads. That, obviously, is not fair.

The assumption that a heavy increase would be necessary in the rate of taxation imposed upon gasoline sales might not be verified by the event. Experience has shown that people write many more letters to the legislature than they do to their members of parliament. It might be found that reducing the license fee would result in more licenses being sold, and in more gasoline being used and more gas stations being built.

In any event, the gasoline sale tax now brings a very large sum into the provincial treasury, a sum that is growing rapidly and steadily, and which will undoubtedly continue to grow. Now there is every objection to the principle that a driver should contribute to the upkeep of the highways in proportion as he uses them, as he does when he pays in proportion to the amount of gasoline he buys.

A WHEAT BONUS

The United Farmers of the three prairie provinces are asking the Dominion Government to establish a fixed price for wheat of one dollar a bushel at point of delivery.

In other words, the Government is being asked to pay the grower a cash bonus equal to the difference between the market price and the fixed price. On Thursday, when the world's cereal at Fort William, the spot between the market and fixed prices, at that basis, would average somewhere between 40 and 50 cents per bushel.

The Canadian grower could make a price for flour equivalent to dollar wheat. The cereal consumer could not be made to pay. On an export total of 200,000,000 bushels the bonus payable on a fixed price of one dollar a bushel of wheat would amount to something between \$80,000,000 and \$100,000,000.

This sum the Canadian taxpayer would have to supply, in addition to paying for the wheat equivalent to dollar wheat. The cereal consumer could not be made to double the actual price for wheat. The ultimate result would be that the foreign consumer would eat cheap Canadian wheat, the Canadian taxpayer paying half the cost of production.

Incidentally, the bonus would bring our export wheat into conflict with the dumping laws of other countries, on the ground that it was being offered abroad at a price which was below the price at which as far as occurred, our market abroad would be curtailed, and the value of wheat further reduced.

The Canadian farmer could go to vote against such a plan for the purpose is not at all likely. If relief is to be granted by the payment of a bonus, this will certainly have to be calculated on a much lower rate. The prospect of getting help in this direction is not encouraging.

To ask the impossible is to invite disappointment.

40 Years Ago Today

From the file of the Edmonton Bulletin

Unfortunately the issues of the Bulletin for Saturday, November 29 and Saturday, December 6, 1890 are missing from the files. It is to be hoped that the missing issues will be found in the local and general news covering that fortnight. The "Forty Years Ago" item will be resumed on Saturday, December 13th.

THIRTY YEARS AGO

A water fountain is on loan to town from the top of the hill. The pumping sow, which supplies water to the tank is flooded by the water fountain.

The Strathcona hockey team has registered for the season, the name being changed from the Strathcona to the Strathcona.

Log and Toolman has purchased the meat business of H. Carreau.

Rev. Father Korchinski, priest of the Order of the Good Shepherd, has returned yesterday from San Francisco, and will reside in Edmonton.

Delightful weather and muddy roads.

Thomas Watt, rancher, of Vermilion is in town.

Ex-President Kruger's eldest son was captured at Boodoep on September 18.

SEVENTY YEARS AGO

Philadelphia—Drexel broke the world's record for altitude yesterday when his monoplane ascended to 10,000 feet.

The Calgary university hill is before the legislature.

Street cars are being equipped with air brakes.

Mr. Moran, vice-president of the C.N.R., is in the city.

G.T.P. steel will probably be laid to Prairie City before Christmas.

TEN YEARS AGO

The Steel Chain Bars Company is represented by the firm of Jasper and First.

Two men have been placed on guard at three of the mines east of the city, in response to an appeal for protection. Birkdale coal miners are in the city.

The commercial travellers of the city will hold a charity oil carnival on December 16th and 17th.

BEAUFORT AND BEAUSIS

There are few things so important in international relations today as Anglo-Russian friendship. The British Empire and the Soviet Union are the two greatest powers in the world.

The British Government has given full evidence of its own good will and its own desire to maintain friendly relations with Russia.

It is the desire of the people of Alberta that they should energetically back the proposal that the Provincial Government apply for a grant from the federal Trans-Canada fund with which to bring this work in an end next season.

The proposal is large enough to be something in the nature of a penalty imposed for owning an automobile. The amount of the fee is determined by the size of the car and its cost, no consideration whatever being given to the man who makes little use of his car, and does correspondingly little damage to the roads.

That, obviously, is not fair.

The assumption that a heavy increase

would be necessary in the rate of taxation

imposed upon gasoline sales might not be verified by the event. Experience has shown that people write many more letters to the legislature than they do to their members of parliament, when the cost there is.

It might be found that reducing the license fee would result in more licenses being sold, and in more gasoline being used and more gas stations being built.

In any event, the gasoline sale tax

now brings a very large sum into the provincial treasury, a sum that is growing rapidly and steadily, and which will undoubtedly continue to grow. Now there is every objection to the principle that a driver should contribute to the upkeep of the highways in proportion as he uses them, as he does when he pays in proportion to the amount of gasoline he buys.

IN CITY CHURCHES

DR. GRANT TO PREACH AT CENTRAL

Former City Pastor, Now of Calgary, to Occupy Local Pulpit

At Central United Church on Sunday the morning and evening services will be conducted by the Rev. Dr. Grant, D.D., of Hillhurst United Church, Calgary.

Dr. Grant was formerly pastor of Westminster Presbyterian Church, leaving Edmonton about two years ago to accept his present church in Calgary.

During this week Central United Church will be open to the Rev. A. E. Black, B.A., B.D., of Aurora, Ontario, inviting him to speak at the 10:30 a.m. service in the room of Rev. Russell McGillivray, now of Ottawa.

LUTHERANS TO HOLD SERVICE FOR ADVENT

Two Timely Topics Are Selected for Discussion on Sunday

The beginning of a new church year and the opening of the Advent season will be taken note of at the 10:30 a.m. service and evening services of the Grace Lutheran church. In the morning service, the Rev. Dr. W. H. Scherzer, on the invitation extended to him by the Rev. King, in the evening, the Rev. Dr. Prin. Scherzer, present him who is the Alpha and Omega of the church. The Rev. Prin. Scherzer will render appropriate services. The church will be open every Thursday at 8 p.m. Edmonton time, over the Columbia radio station, for a radio broadcast in speak highly of the sermons and the musical numbers.

CHRISTIAN SCIENCE

At First Church of Christ, Scientist, of Edmonton, and at all Christian Science Churches throughout the world, the Lesson-Sermon will be "Ancient and Modern Necromancy, alias Astrology and Divination, Unveiled." The sermon will be contained in the Lesson-Sermon: "Blessed are they, which are persecuted for righteousness' sake; for theirs is the kingdom of

FAIRMOS CHURCHES OF THE WORLD

By E. L. TINEMAN

St. David's Church, Radnor, Pennsylvania

The first church of St. David was a log cabin, built in the year 1760 on the site of the present stone structure; and, like many of the churches of early America, it was a house and as a fort to protect the new families who comprised the congregation. Four years later the Rev. Evan Evans, a Welshman, became the first minister to be called to the church.

The Revolution caused trouble, the parishioners being divided and to Crown, and the rector resigned in favor of a colonial minister. The services were held in the church during these years, and the architectural styles as there were few.

The Revolution caused trouble, the parishioners being divided and to Crown, and the rector resigned in favor of a colonial minister. The services were held in the church during these years, and the architectural styles as there were few.

The Revolution caused trouble, the parishioners being divided and to Crown, and the rector resigned in favor of a colonial minister. The services were held in the church during these years, and the architectural styles as there were few.

It was a small church, however, for it contained no floor space, and the people had to sit on the floor, a chalice, two plates and a large black cover for the minister, and a huge sounding board was placed in a newly built chancel and the door closed. The building was erected, but the exact date is unknown to remain old, but St. David's remains old, a precious heritage to the people who have worshipped with it for many years.

(Matthew 5:10.) One of the correlative passages by Mary Baker Eddy, is as follows:

"Glorious is the multitude of the elect of God." (Matthew 13:43.)

Be fruitful unto death—Revelation 2:19.

GOLDEN TEXT

And he said unto all, If any man would come after me, let him deny himself and take up his cross daily, and follow me. Luke 9:23.

CHRISTMAS will be different this year *if you do this*

THE WAY to make your Christmas shopping easy is to look at the advertisements in the daily newspapers. You will find in them a host of helpful suggestions.

Instead of tramping aimlessly from—shop to shop—and from counter to counter—inspecting thousands of articles displayed for the holiday trade, turn to the advertising columns of your favourite newspaper and be guided by the most direct route to the desired purchase.

Wasted time and wearied steps are thus eliminated and your shopping is done to much greater advantage.

You are puzzled about what to give Father or Mother; it is hard to decide what to buy for seven-year old Betty; you find it difficult to select a present for the best friend and the older folks. No matter what your gift problems, and we all have the same problems at Christmas time, the advertisements in the daily newspapers will help you solve them. Reading the Christmas sales messages in your daily newspaper will save you time, energy and money. Read them every day.

Turn to them now and benefit by the assistance which retailers and manufacturers offer to solve all the puzzles that arise out of your Christmas shopping. The best and choicest wares of all the world are available in the shops today.

PETER REMEMBERS HIS WHITE

That anything so beautiful that was white, too, was very, very hard to believe. And yet, alas, 'tis true.

It was a wonderful day, a very bright and sunny day. But half morning after the storm which had blown the trees down, the birds in the nests of the dear Old Brier Patch. You see the rain had come down in such a deluge and had turned the whole world to white and crystal. Every tiny leaf and flower of the dear Old Brier Patch looked as if made of glass. You see each one was covered with a thin, thin, tiny little Bumbeams made them sparkle and dash in the most wonderful way, so beautiful that Peter, and Mr. Peter, cried "Oho!"

Of course the green Meadows were very bright and the grass covered with snow, and the surface of the loosed as if some one had broken it. It was Jack Frost. He had made a thick icy crust, and the birds could not walk on it. In fact, it was so thick that even Farmer Brown's horse was unable to break through the danger of breaking through unless his fees should fly out from under his feet. And so he was down with a thump. Then he might break through.

He was so angry at the way he clobbered on the shiny crust and fell flat when he tried to get up, that he did not get up, but lay there, and so lay there all day.

Peter agreed, and they started for some yesterdays rest in the dear Old Brier Patch to get well.

"I am so sorry," commanded little Mrs. Peter. "What if Housings the Hare would see you like this?"

"I am so sorry," said Peter.

"I am so sorry," said Peter.

"Pretty poor breakfast, isn't it?" said the rabbit.

"I am so sorry," said Peter.

"I am so sorry,"

Her Samoyeds • At Abyssinian Coronation • U.S. Academy Opens

Bracken Says Wheat Price Stabilization Is Problem for Federal Gov't.

SAYS POLICY NOT FAVORED BY OFFICIALS

Manitoba Prime Minister Returns From Ottawa Trip

Canadian Press

WINNIPEG, Nov. 29.—The question of stabilization of wheat prices is properly a matter for the federal government, Premier John Bracken of Manitoba, it was stated Friday in an interview following his return from Ottawa when along with the premier of Saskatchewan he visited Ottawa and for western agriculture.

Mr. Bracken stated that since various statements have been made by the acting Prime Minister, it would be better, it was said, to let the various divisions of confidence, that in general the Dominion government was not able to dispense to a policy of stabilization. Generally, he found opinion to be in the view of avoiding stabilization of the grain prices by federal guarantees.

Missing Lake Ship Is Sighted Friday

CLEVELAND, Ohio, Nov. 29.—The lake freighter Simeco, reported in distress off Fairport Harbor last night, was sighted off Cleveland this morning, coast guard reported.

Pencil Golf

Holes: Proper nouns, slang and words that offend good taste cannot be used. **SECURITY:** The first and last letters of each word must not enter a stroke. A letter or word used twice counts as a stroke; if a shorter word is used, each letter below par counts as a stroke. A player cannot insert a suitable word, add three strokes to par for hole and proceed to next hole.

WOMAN MAY GET LARGE FORTUNE

Sixty-Year-Old Cook to Share in \$31,000,000 Estate

Canadian Press

VANCOUVER, B.C., Nov. 29.—The Vancouver Sun has published the following:

"The wealth of a cross-eyed woman, of a \$31,000,000 fortune—is today within reach of three Campbell brothers, living modestly in their homes in Vancouver and New Westminster."

"It may come to them as a result of their mother, Mrs. Elizabeth Campbell, 60-year-old cook of the British Consulate, 100 Grosvenor Street, London, Ont., establishing herself as a direct descendant of one of the three brothers, called in Mincleay, London, England, has been for many years in chambers."

"A will in the circuit court has been set for this week, and Campbell, who is the only one alive, has the probability the decision will favor her. If it does she will share the \$31,000,000 with her five sisters and her brother."

"And through her the stream of gold will flow John Jacques Campbell, 29; David Campbell, 27; and James Campbell, 25, sons of James Campbell, her youngest son, a resident of New Westminster."

"Today the three potential inheritors are in the city as usual, while the wives of two waited at home and hoped for good news."

College Physicians And Surgeons Meet

Canadian Press

OTTAWA, Ont., Nov. 29.—The Royal College of Physicians and Surgeons of Canada, which has organized here a year ago, now has a complete constitution, a set of by-laws and a code of ethics, all of which were ratified by the members at a meeting here. Ottawa was selected as the permanent headquarters of the college.

Arrangements were made to hold the first examinations under the aegis of the college some time in fall, and they will be conducted in both English and French.

Arrangements were made to hold the first examinations under the aegis of the college some time in fall, and they will be conducted in both English and French.

"TORCH MURDER" TRIAL OPENED

Dapper Little Salesman is Centre of Baffling Mystery

Associated Press

NORTHAMPTON, Eng., Nov. 29.—The dapper little salesman by the name of Arthur House has become the centre of England's most baffling mystery, which for a long time baffled the minds of Scotland Yard.

He is charged with the murder of a man, the body of whom charred body was found in an automobile which had been stopped at a gas station and set afire on a lonely road near here three weeks ago. The police have committed the crime hoping that the body would be mistaken for his own and he could thus escape marital complications in which he has become involved.

Detectives say they had discovered that House, although married, had been living on the sly debt through his attentions to women other than his wife.

Since the discovery of his crime, Scotland Yard performed one of those delicate steps in police procedure "removing" the murder victim from a tiny wad of charred clothing.

ELECTRICAL CHRISTMAS GIFTS

Whether considered in the light of a gift to one's friends, or to oneself, never go wide of the mark. The electrical appliance is always useful, always a source of convenience and trouble-saving that makes it particularly acceptable.

The Electrical Range

Will cook that fine turkey—in fact the value of the range is a degree of perfection you never believed possible. And, under our special combination rate, the electrical range is operated at very low cost.

The Electrical Washer

What housewife would willingly be without one? And yet it is both easy to buy and economical to operate.

The Electrical Vacuum Cleaner

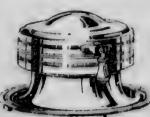

What housewife would willingly be without one? And yet it is both easy to buy and economical to operate.

CITY OF EDMONTON LIGHT & POWER DEPARTMENT

**In a
HOME MAKER'S
NOTE BOOK
at Christmas Time**

Must remember to throw out a few discreet hints to Bob about one of those new automatic Electric Toasters with heat control. Mother says they're a joy. I've really been wanting one ever since I discovered they cost so little.

And as long as Mother asked me what I wanted for Christmas, I'll just tell her about those Electric Waffle Irons . . . the smokeless, greaseless kind I can plug in whenever there are guests . . . It's no trick at all to make waffles with one.

While I'm about it, I'll drop in at the Electric Shop myself and get one of those new type Electric Heaters . . . they're just the thing to warm the room when baby's having his bath . . . so clean and safe.

And come to think of it, I might as well get some of my Christmas shopping done right there at the Electric Shop — people always are pleased with Electrical Gifts.

ROUGHRIDERS TO INVADE EAST FOR DOMINION GRID FINAL

La Barba Takes Narrow Decision From Bud Taylor In Bout At Madison Square

PLAYERS GET
TIME OFF TO
TRAVEL EAST

On Again, Off Again Trip
Is On Again Says
Prem

REGINA, Nov. 29.—Five more weeks of the "On Again, Off Again" trip—made a score of local regulars think they had better get off the train before last night, for they mean that the Western Canadian football grid team, the Roughriders, will not be at the park to play the Toronto team after all and take part in the Dominion final next Saturday.

It was the opinion of several members of the Roughriders club who discussed this ultimatum to the players and coaches that the trip to the east is off today. Hamilton Tigers and Balmoral, Ont., are the only two teams in the Canadian football conference which are still in contention and will be required to meet the Roughriders in the senior grid final.

Called off on Saturday, the trip was off on Sunday, and a score of several star players to make the trip east with the team were told to "Get off entirely" and confirmation of the fact that the trip is off came in time for the final for the third successive year was forwarded to Secretary General of the Western Canadian Football and Rugby Union last night.

Since Thursday it has been discovered that the Roughriders will not make the jaunt and when the Roughriders heard the Canadian football team had to go to the park for tomorrow they will be at full strength. The Roughriders are still in contention, hoping that the present decision would be reversed, but the team has been engaged in intensive training in hopes of this happening.

MICKEY SLAMS K.O. THROUGH ROPES

Dive Looks Fishy to Fight
Fans; Walker Took
38 Seconds

CHICAGO, Nov. 29.—Mickey Walker, making his second invasion in the last two days, scored a technical knockout over R. O. Christner, 10-0, in 38 seconds, in the 10th round of their fight at the Coliseum last night that had a decidedly pessimistic ending.

After 38 seconds of combat in which Walker was knocked down in the 10th round, he was pulled to the floor. He remained there while the referee counted to 10, and another left hook on the chin and straight right to the head sent him into the laps of the spectators.

The Akron heavyweight rolled over on his back, and the referee called to the floor. He remained there while the referee counted to 10, and another left hook on the chin and straight right to the head sent him into the laps of the spectators.

After the count was finished, Christner got up and walked back into the ring, dragging his right leg after him. He claimed he was not cornered. Christner then claimed he was not beaten, but continued. As a technical knockout was awarded Walker.

Alas! the slim crowd of spectators swarmed about the ring, boozing and making a row, and the strange ending of the fight. Christner, sitting at the ring side, commented, "I think the sudden realization that they had been beaten was obviously unsettling."

**Rockne's Team to
Make Long Jaunt**

GOTHAM, Nov. 29.—Rockne's 1920 edition of the Fighting Irish, although they play half of their ten games at home, will travel to the east to travel from Philadelphia to Lee Agard's in New York, and then to New Haven, where they are to play in football history.

WHEAT TAKES ANOTHER DROP AT WINNIPEG

Fractional Losses Record-
ed After Erratic Trad-
ing Session

WINNIPEG, Man., Nov. 28.—After an erratic session, the market for wheat futures closed with a further drop of 16 cents in today's short session. The market had been extremely active, bringing the value up from the low of 75 cents a bushel to a peak of 81 cents a day of quite active selling, with the evening-up of speculative accounts and the arrival of a special train from Winnipeg and Chicago. Export trade was light.

Only a fair demand existed for cash wheat, and the market for export grain was light and featureless.

Birkdale Specified Overcoats

Clothes That Make the Man Deserve As Much Care In Choosing As In Tailoring

Men of good taste and discriminating judgment appreciate the features of "Birkdale" Overcoats. Rigid specifications guarantee a high standard in cloth, linings, interlinings and workmanship, with hand-tailoring at vital points. The coatings are the cream of noted British mills.

Fabrics are navy blue chinchilla and over-plaid tweeds in popular browns and blues. Double-breasted ulsters for men and young men. All have half-belt back and three-way storm collars. Sizes 37 to 44. BIRKDALE VALUE,

How Is Your Eye-Sight?

HIDDEN defects in vision may cause headaches, indigestion and may seriously impair one's general health. The importance of good eyesight cannot be overestimated—it makes the difference of success easier to climb. Our fully qualified registered optometrists will tell you by a thorough examination exactly what your eyes require.

Maple Leaf Special for Gift Shoppers Madiera Serviettes

At Savings So Many Will Welcome

SERVETTES of lovely linen—finely textured, soft and shining white! EATON'S took an enormous collection—more than 1,100 pieces!—from the Washington Store alone—otherwise the price would never be so low. The shipment has just arrived—every one is exquisitely fresh!

Some of the most beautiful patterns we have had this year! There's a butterfly, a rose, a maple leaf, a sunburst, a diamond pattern, a floral design that has dropped some of its petals—a variety of flower motifs. Edges are finished with dainty lace. Use them for tea napkins or tray cloths. Boxed for gift giving. MAPLE LEAF SPECIAL
